1 What is MagMo?

MagMo, derived from “Magic Moments,” is a social media management tool dedicated to strengthening the connection between well-known brands and their social audience.

MagMo has developed a tool that creates short stories populated with pictures and text that brands can use to produce content designed for their existing social media networks (i.e. Facebook, Twitter, Instagram).

2

MagMo is a Publishing Tool for Your Stories (Think Hootsuite for Photos)

Built in templates with multiple pages

Clickable Text Boxes

Publish to multiple platforms

Monetize organic posts

Why Magmo?

Despite robust social following, brands don't have an effective way to monetize their existing audience.

Existing social media platforms have limitations which MagMo solves.

3

Easy Creation Tool for Web or Mobile

1. Select Template

2. Select Photos

3. Drag and Drop Text

4

MagMo's Viewing Platform Provides for Better Story Telling with Unique, Built-in Monetization Features

Build up to FOUR pages to create a narrative story to showcase your Brand

Add clickable links in text boxes to videos, web page, articles, etc.

Page Five (the "Back Cover") is your OWN clickable page for Monetization.
